

Learn to Recognize 9 Planets

1. Summary

To understand and apply Jyotish, one must first **recognize the 9 planets** and the **impact of their qualities**.

Each planet influences your life with a unique **vibration**. As per their order of working — **Ke-shu-ra Cha-ma-ra Gu-sha-bu** — every thought, action, emotion, object, and person reflects the energy of one of these planets.

By understanding these qualities, you begin to see how they work in your own **birth chart** and in daily life. This is the first step in interpreting planetary placements meaningfully.

2. Key Takeaways

- Memorize the working order: **Ketu, Shukra, Ravi, Chandra, Mangal, Rahu, Guru, Shani, Budh**.
 - Each planet has a **specific quality** and **expression**:
 - **Ketu** – Mystery, Notion, Occult, Intent
 - **Venus** – Beauty, Discrimination, Fineness
 - **Sun** – Specialty, Soul, Core Competence
 - **Moon** – Inner Mind, Awareness, Subconscious
 - **Mars** – Strength, Action, Alertness
 - **Rahu** – Attention, Direction, Meditation
 - **Jupiter** – Wisdom, Conscience, Expansion
 - **Saturn** – Stillness, Focus, Halt
 - **Mercury** – Conscious Mind, Duality, Communication
 - Everything you see or experience belongs to one of the 9 planetary vibrations.
 - Jyotish becomes meaningful when you match **planet + bhava (house)** and form **one interpretation sentence**.
-

3. Goal

To enable learners to:

- Recognize and relate with the **qualities of 9 planets**.
 - Begin forming **simple one-line meanings** using planet + house combinations.
 - Identify planetary qualities not just in charts, but in people, objects, emotions, and life events.
-

4. Utilization

- Read your own **birth chart** and observe which planet sits in which **bhava**.
 - Match the **planet's quality** with the **house's meaning** and create one sentence.
 - Use this method to read the chart of others and make sense of personality or tendencies.
 - This is **level-1 Jyotish observation**, and is the foundation for deeper interpretation.
-

5. Theory

- Every planet holds a **core vibration** that expresses through your actions, thoughts, and experiences.
 - The **order of working** is fixed — **Ke-shu-ra Cha-ma-ra Gu-sha-bu** — and affects the sequence of planetary influence.
 - Planets placed in houses (bhavas) give visible traits:
 - e.g., **Mars in 1st house** → Action taker, Alert, Fit
 - **Venus in 1st house** → Beautiful appearance, Connoisseur
 - **Shani in 3rd house** → Slow speech, Pauses
 - **Ketu in 4th house** → Holder of mysterious sciences (like Vastu)
-

6. Practical Implementation

- Look at your own **birth chart**.
- Write down each **bhava** (house).
- Note the **planet** in that house.
- Form a **sentence** combining the quality of the planet and the house.
- Observe: Which ones match? Which ones don't?
- **Learning begins** where matching stops. That's your area of growth.
- Keep writing, observing, and verifying. This is how **learning by experience** happens.
